Health Screening

DOE Buildings

All DOE employees, students, families, and visitors seeking to enter DOE buildings must complete a health screening before entering DOE facilities. This health screening must be completed on each day of arrival and results will reset at midnight of each day. Upon entering the facility you will be asked to provide the results of your screening either by showing your phone or a printout of the results.

Step 3- go to consent tab on top

The screenshot shows the top navigation bar of the NYC Department of Education Health Screening portal. The 'Consent' tab is highlighted with a yellow circle. Below the navigation bar, there is a user profile icon and a 'Hello' greeting. The main content area contains a COVID-19 symptom questionnaire with four radio button options. A 'Download a printable version of this questionnaire' link is provided below the options. At the bottom, there is a language selection dropdown and a list of supported languages: Arabic, Bengali, Chinese, English, French, Haitian Creole, Korean, Russian, Spanish, and Urdu. The footer includes a 'Privacy Policy' link and a copyright notice for 2022 The New York City Department of Education.

COVID-19 Testing Consent

The New York City Department of Education (NYC DOE), working with NYC Health + Hospitals and the New York City Department of Health and Mental Hygiene, has partnered with laboratories and other providers to test NYC DOE students, teachers, and staff members for COVID-19 infection.

Our laboratory and provider testing partners will come to every school periodically to test a sample of the students, teachers and staff. If you consent, you may be selected for testing on one or more of these occasions, and you may also be tested in accordance with state and city mandates, or if you exhibit one or more symptoms of COVID-19, or if you are a close contact of a student, teacher, or staff person with COVID-19 infection, or in connection with your involvement in an extracurricular activity for which testing may be conducted.

If you consent, you will receive a free diagnostic test for the COVID-19 virus. Collecting a specimen for testing involves inserting a small swab, similar to a Q-Tip, into the front of the nose and/or collecting saliva.

COVID-19 test results will generally be provided within 48-72 hours. If your test results are positive, you must stay home, and should inform your supervisor and contact your doctor immediately to review the test results. If you test negative but have symptoms of COVID-19, or if you have concerns about your exposure to COVID-19, you should call your doctor. If you need help finding a doctor, call (844) NYC-4NYC.
