

## School Leadership Team Meeting Minutes

Friday, November 4th, 2022

7:15 AM, Virtual

**Attendees:** Hossein Aleyasin, Andre Galan, Annawa Naing, Louis Pavone, Rose Zelwinder, Adrianna Grullon, Kelly Craig, Jim Walsh, Rebecca Gunness, Jillian DiRoma.

- Meeting called to order at 7:20 a.m.
- Minutes approved
- Zoning discussed: PS78 SLT has concerns around following:
  - New school buildings supposedly being built in Hunters Point and Court Square. Current schools are over-capacity. Zoning decisions should not be made until adequate capacity has been added and new schools are built and able to be included in zoning process.
  - New legislation for smaller class sizes needs to be factored in as well.
- Accelerated classes: We are looking to add the Living Environment regents for the 23/24 school year, and then possibly include another in the years to follow.
- Hydroponics lab: Kelly Craig managed to secure funding for a long-desired hydroponics lab. Sun Works has come to the school to take measurements and are working to have it ready for this year.
- School surveys: We are incorporating results into CEP to ensure that focus areas are part of our structured goals.
- Safety plan has been approved. School is still working to secure additional security and crossing guards (the school currently has no crossing guard at the ECC building).
- Meeting adjourned 8:10am
